Dr. FILOTHEOU, Alexandros · Senior Robotics Engineer

9+ Years in Multi-robot Development, Integration, Deployment | Single author of IEEE IROS and R&AS publications

Portfolio · github.com/li9i · Google Scholar · linkedin.com/alexandros-filotheou

Highlights

- Integrated and deployed €10M 19-partner-consortium robotics construction project RoBétArmé with Bouygues Construction and COBOD
- Designed and deployed autonomous social robot at AMTh museum → tested by 2,000+ visitors annually since 2023
- Reduced deployment time >10x across fleet of additive manufacturing robots → faster+more test iteration cycles
- Carried out and defended PhD without advisor

Skills

English	C2 Proficiency
Languages	C/C++, Python, MATLAB/Octave
Tools	git, Docker, vim, Behavior Trees, Gazebo
Robotics/OS	Linux, ROS/ROS 2

Representative Demos

- Mobile base - Trailer Joint Navigation · 2025
- Pipeline: 3D Reconstruction → Rebar Welding · 2025
- Live Welding Robot with Consortium at CEAS, DK · 2024
- Accurate Robot & RFID SLAM and Navigation · 2022
- Control is Fun · 2017

Professional Experience

- Senior Robotics Software Engineer — 2026 – Now
- Integration & Deployment Engineer — 2023 – 2026
- Robotics & Control Research Engineer — 2018 – 2023
- Computer Vision Engineer — 2013 – 2014
- Telecommunications Engineer — 2008 – 2009

Educational Background

Doctorate · 2023 | **Diploma** · 2013
Electrical & Computer Engineering
Aristotle University of Thessaloniki, Greece

Master of Science · 2017
Systems, Control and Robotics
KTH Royal Institute of Technology, Sweden
