

Dr. FILOTHEOU, Alexandros · Senior Robotics Engineer

8 Years in Multi-robot Development, Integration, Deployment · Single-authored IEEE IROS and R&AS

[Portfolio](#) · github.com/li9i · [Google Scholar](#) · linkedin.com/alexandros-filothou

Highlights

- Integrated and deployed €10M [19-partner-consortium](#) robotics construction project with Bouygues Construction and COBOD
- Designed and deployed [autonomous social robot](#) at [AMTh](#) museum → tested by 2,000+ visitors annually since 2023
- Reduced deployment time >10x across fleet of additive manufacturing robots → faster+more test iteration cycles
- Carried out and defended PhD without advisor

Skills

English	C2 Proficiency
Languages	C/C++, Python, MATLAB/Octave
Tools	git, Docker, vim, Behavior Trees, Gazebo
Robotics/OS	Linux, ROS/ROS 2

Professional Experience

- | | |
|---------------------------------------|-------------|
| • Senior Robotics Software Engineer | 2026 – Now |
| • Integration and Deployment Engineer | 2023 – 2026 |
| • Robotics & Control Engineer | 2018 – 2023 |
| • Computer Vision Engineer | 2013 – 2014 |
| • Telecommunications Engineer | 2008 – 2009 |

Representative Demos

- [Mobile base - Trailer Joint Navigation](#) · 2025
- [Pipeline: 3D Reconstruction → Rebar Welding](#) · 2025
- [Live Welding Robot with Consortium at CEAS, DK](#) · 2024
- [Accurate SLAM and Navigation](#) · 2022
- [Control is Fun](#) · 2017

Educational Background

[Doctorate](#) · 2023 | [Diploma](#) · 2013

Electrical & Computer Engineering, Aristotle University of Thessaloniki, Greece

[Master of Science](#) · 2017

Systems, Control and Robotics · KTH Royal Institute of Technology, Sweden
